

ATTENTION USERS OF THE MISS UTILITY SYSTEM

The Mayor and Common Council of Westminster at its meeting of July 14, 2008 adopted Ordinance No. 785 entitled "Underground Facilities" and accompanying Resolution No. R08-11 entitled "Underground Marking Fees". Copies of this legislation can be obtained from the City Clerk at 410-848-9000.

Ordinance No. 785, which became effective July 14, 2008, authorizes the Director of Public Works to issue invoices for location and marking underground facilities. Ordinance No. 785 also authorizes The Mayor and Common Council of Westminster to establish by resolution fees for the issuance of utility locating.

Resolution No. R08-11, which is accompanying legislation to Ordinance No. 785, establishes a Miss Utility Location/Marking fee in the amount of \$35.00 for an initial marking and \$15.00 for a re-marking of utilities.

As noted above, this new legislation became effective October 3, 2008. Implementation of these new fees began in May 2009. Invoices will be generated to each user of the system on a monthly basis at the rate of \$35.00 per marking and \$15.00 for a re-marking of utilities.

Invoices are then due upon receipt.

This information has been sent to each user of the system as a notice to either an interested representative of a utility company or an involved party in requesting and obtaining utility locations from the City of Westminster. Should questions arise, please feel free to contact 410-848-9000 for further assistance.
